Keymacro is a simple yet efficient utility for anyone who works with text files and prefers to use text strings as a means of adding or modifying content on files. One of the application's goals is to simplify the task of finding the required text string from among the files contents and this could be accomplished with the inclusion of a simple text finder or search function. Users can use it for inserting text content on files and they can even apply different formatting to its contents, adding bold, italic, underline, stipple, reverse direction and other useful features. Keymacro can be configured and used as a keyboard shortcut, so one will be able to activate it with the help of a hotkey, to quickly add or modify text strings on any file. Furthermore, the application is capable of opening files that contain text strings in order to find or replace them, while it also offers users the possibility of adding a custom macro to the files, which will be sent as a shortcut to the file that was originally opened. Customizing text strings with Keymacro Keymacro has been created for users who want to work with text strings, where one will be able to easily insert, modify, delete and replace them. The application is capable of saving macros, while the user can find, replace or copy them to the clipboard for further usage on other applications. Other features offered by Keymacro include, but are not limited to: • Batch import and export of macros • Import/export from/to all standard and custom formats • Edit & Format toolbar • Key selection (in combination with Multiselect) • Cut/copy/paste • Find & Replace • Commandline and preview modes • Use of regular expressions in the search field • Immediate saving of changes • Ability to run scripts in the background • Autosave • Copy of paths and filenames • Default Text • Text Color • Line Color • Background Color • Segment Size • Marker Color • Marker Size • Marker Spacing • Dialog size • Text size • Text distance to current position • Text distance to next character • Text distance to last character • Line distance • Line thickness • Line width • Text angle • Text format • Text font • Text rotation • Underline • Stipple • Reverse direction • Word wrap • Autoindent • <https://overmarket.pl/wp-content/uploads/2022/05/leemhob.pdf>
